

Cyberfortress Archive Storage

Your Data Served Your Way

Not all data is created equally, so why protect it like it is? All data is important and needs an appropriate level of protection, the key is aligning the level of availability with the value of data.

CyberFortress's Archive Storage offering challenges the one-size-fits-all data availability paradigm by delivering a tiered storage solution. Easily achieve an optimal mix of fast recovery capabilities and cost-effective backup storage with built-in automation to archive.

Intelligent

Online portal for centralized reporting, alerting and protection insights.

Simple

Backup your data and forget it, easily retention needs dictated by corporate policy and instead properly align data availability with business needs.

Compliant

Keep data as long as needed and store based on long-term retention requirements.

Alignment

Eliminate cost constraints and retention needs dictated by corporate policy and instead properly align data availability with business needs.

Automated

Policy based migration of data into tiers of availability will achieve an optimal mix of fast recovery vs. longer term

Three Simple Steps to Success

1 Choose
CyberFortress as your
Service Provider

2 Create
Backup Copy
Jobs

3 Archive
Data is tiered off
automatically
