

Managed Cloud Backup as a Service

Safeguard Your Data, Protect Your Business

Ransomware, security exploits and compliance violations are digital threats you can securely mitigate with a data protection strategy. CyberFortress' Veeam-Powered Cloud Backup solution reduces risk and makes data protection simple and effective.

Flexible

Dynamically allocated cloud storage based on real-time data performance needs.

Managed

Run your business, not your backups. Our experts monitor, manage and remediate problematic backup jobs and run day-to-day protection for radically improved success.

Hyper-Secure

End-to-end encryption is table stakes in today's digital world. Our security-rich environment is the next evolution for physical and logical security.

Personal

Access to a live human for quick problem resolution, 24x7x365 with credentialed Veeam experts.

Visibility

Online portal for complete visibility and control with intelligent alerting and management insights.

Tailored

Services designed to meet a variety of business needs. Choose the best fit with hyper-availability, recovery and cost in mind.
