Maximize Availability with Cloud Backup and Disaster Recovery

An original Platinum Veeam Cloud Service Provider that's one of the largest and most highly credentialed Veeam Accredited Service Partners, we lead the industry in technical implementation and expertise related to Veeam products.

Cloud Backup with Veeam Cloud Connect

Ransomware, security exploits, and compliance violations are digital threats you can securely mitigate with a data protection strategy. CyberFortress' Veeam-Powered Cloud Backup solution reduces risk and makes data protection simple and effective.

Flexible

Dynamically allocated cloud storage based on real-time data performance needs. Hypervisor agnostic, helping avoid vendor lock-in.

Visibility

Online portal for complete visibility and control with intelligent alerting and management insights.

Disaster Recovery with Veeam Cloud Connect

Ransomware and Insider Protection, your last line of defense against hacker or insider attacks - deleted or expired data isolated in the cloud. Included in our Premium Veeam BaaS Suite, Optional add-on with Pro Plus Veeam BaaS Suite.

Aggressive Recovery Times

Aggressive range of failover and recovery times, customized to your organization's needs.

One-Click Failover

Recover your full site or a single server to a VMware or Hyper-V environment for disasters or recovery testing.

Archive Storage

Not all data is created equally, so why protect it like it is? All data is important and needs an appropriate level of protection. The key is aligning the level of availability with the value of data.

Automated

Policy-based migration of data into tiers of availability will achieve optimal mix of fast recovery vs. longer-term.

Compliant

Keep data as long as needed and store based on long-term retention requirements.

Microsoft 365 Cloud-To-Cloud Backup

CyberFortress' Veeam-Powered cloud backup solution for Microsoft 365 reduces risk and addresses unrecognized dangers through simple, secure and effective protection for critical corporate Exchange, OneDrive and SharePoint data.

Comprehensive

Recover individual mail, contact and calendar items or download an entire mailbox as a PST.

Simple

One-click cloud backup with an on-line autonomous portal for reporting, restoring and protection insights.
